Welcome to the Future. Let's Get Started.

[Bashpole, Inc.](#) (see [bashpole.com](#) and [updentivity.com](#)) is a fully funded startup that makes niche web and mobile apps that help businesses and individuals maintain, distribute, and update one of their most valuable information assets, their contact data. We're here to be the best.

Jobs. Internships. Life. We are recruiting people of exceptional talent for backend development, user-experience design, and marketing for an office opening in Northern Indiana. If you're the best at what you do or want to gain experience around those that are, send your resume, work-sample links, and screenshots to JoinUs@Bashpole.com
